## Closing the Gap: SRH Services in Kandy

FPA Sri Lanka is proud to announce the opening of the Pallekelle Suwa Seva Centre, addressing the long-standing sexual and reproductive health needs of EPZ workers in the Central Province, particularly women, who make up the majority of the apparel and manufacturing workforce. This facility brings accessible, confidential, and high-quality care closer to the community and surrounding areas. The centre offers a range of services, including contraceptive care, cancer screening, STI prevention, mental health support, GBV awareness programmes, and referral services.

## SRH Awareness at Waverly Health Centre – Lindulla

A session was conducted at the Waverly Health Centre, Lindulla, Nuwara Eliya, under the IPPF SPRINT Project. Given the region's challenging terrain and limited access to health services, such initiatives are crucial.

By strengthening knowledge and encouraging open, stigma-free conversations, the session aimed to create a ripple effect beyond the programme, supporting healthier choices and more informed communities.

## Connecting Communities: SRH Outreach Across Moneragala

Since its opening in 2024, following a needs assessment that identified healthcare gaps in the region, the Moneragala Centre has been strategically serving surrounding villages and communities. During the week, awareness programmes at the Badulla General Hospital, mobile clinics in Higurugamuwa and Madulla & youth sessions at the Wellaway and Buduruwagala VTA Centres engaged over 110 young people.
