

This week at FPA Sri Lanka reflected the strength of our partnerships and the breadth of our community engagement, as we continued advancing Sexual and Reproductive Health services across multiple districts.

Strengthening Partnership with United Nations Population Fund

Mr. Phuntsho Wangyel, UNFPA Representative for Sri Lanka, visited FPA Sri Lanka, following his appointment in 2026. The visit reaffirmed the strong and long-standing partnership between UNFPA Sri Lanka and FPA.

During discussions with Executive Director, Dr Ruchitha Perera, senior management team and unit heads, key FPA initiatives and ongoing programmes were highlighted. UNFPA has continuously supported efforts in advancing Comprehensive Sexuality Education (CSE), strengthening Sexual and Reproductive Health (SRH) awareness among young people, and enhancing humanitarian responses. We look forward to further strengthening this valued collaboration.

Batticaloa Centre at ELEVATE

Our Batticaloa Centre participated in the “ELEVATE Public Trade Fair” in Kallady, engaging community members on sexual and reproductive health, family planning, and available services.

Outreach Clinic – Badulla District

In recognition of International Women’s Day, our Monaragala Centre team organized an outreach clinic for women in the Rideepana community of Badulla District, in collaboration with the Manusath Praja Samithi. The team was honored to receive an appreciation award for their efforts. Partnerships like these allow us to continue reaching communities with the care, support, and services they deserve.

Workshop Series on Inclusion & Rights

FPA Youth successfully conducted the first two sessions of its latest workshop series, supported by an IPPF grant, bringing together university students and outreach and field workers for meaningful dialogue on diversity, inclusion, and LGBTQIA+ rights.

Facilitated by Mr. Thushara Manoj, the sessions strengthened participants’ ability to engage respectfully with diverse communities and enhanced their understanding of relevant legal frameworks in sensitive areas. Two more sessions will follow in this series.

Alokaya in Action at Richard Pieris Exports PLC

The Alokaya Counselling Centre conducted an International Women’s Day motivational session for female employees, focusing on mental well-being, stress management, and self-confidence.

SPRINT Project Outreach in Kegalle District

As part of the SPRINT Emergency Response Project, the Seethawaka Centre conducted a Women’s Day outreach at Sunnycroft Estate, Waharaka, including an awareness session on Gender-Based Violence and available support services.

Educating, Engaging, Empowering

Click each image to watch the video

In March, we released 8 awareness videos covering topics like condom use, protection, STIs, safety in relationships, and the importance of having conversations about contraception. The videos, featuring our very own staff as actors, reached a wide audience on social media, bringing vital information directly to the community.
